## Bug Report 01

ID number	#001
Name	Shopping Cart – Adding two items when click one time on "Lisää koriin"
Reporter	
Submit Date	09/28/2024
Summary	When I click single time on "Lisää koriin" of the 1 <sup>st</sup> product in the home page, shopping cart icon's span shows as 2 items has been added.
URL	<a href="https://www.jimms.fi/">https://www.jimms.fi/</a>
Screenshot	<a href="http://www.example.com/screenshot123">www.example.com/screenshot123</a>
Platform	Windows
Operating System	Windows 11 Pro
Browser	Chrome Version 129
Severity	Major
Assigned to	/
Priority	High

### **Description**

When I click single time on "Lisää koriin" of the 1<sup>st</sup> product in the home page, shopping cart icon's span shows as 2 items has been added.

### **Steps to reproduce**

- Navigate to the web application
- Scroll down in the home page and click on 1<sup>st</sup> product "Lisää koriin"
- Check the shopping cart span
- Click on shopping cart icon and navigate to the shopping cart and check the number of products added

### **Expected result**

Shopping cart icon's span should display only 1 when the "Lisää koriin" button is clicked only once. Shopping cart should contain only 1 item.

### **Actual result**

The cart contains only 1 item, but the cart icon's span shows 2 items

### **Notes**

## Bug Report 02

ID number	#001
Name	Navigation Menu – Not navigating to the relevant product page when click on last menu item “Kampanjat”.
Reporter	
Submit Date	09/28/2024
Summary	When I click on the last menu item, it is not navigating to any page.
URL	<a href="https://www.jimms.fi/">https://www.jimms.fi/</a>
Screenshot	
Platform	Windows
Operating System	Windows 11 Pro
Browser	Chrome Version 129
Severity	Major
Assigned to	/
Priority	High

### **Description**

When I click on “Kampanjat” menu item it is not navigated to any page.

### **Steps to reproduce**

- Navigate to the web application
- Click on the menu item “Kampanjat”

### **Expected result**

User should be navigated to the relevant product page.

### **Actual result**

User is not navigating to the product page.

### **Notes**

## Bug Report 03

ID number	#003
Name	Magnifier Icon (Search Functionality) Not Working on JIMMS Website
Reporter	Wasantha Ranasinghe
Submit Date	09/28/2024
Summary	When a user types a search query in the search bar and clicks the magnifier (search) icon on the JIMMS website, the expected behavior is that they should be directed to the search results page. However, clicking the magnifier icon does not trigger any action, and the user is not redirected to a search results page, making the search functionality unusable.
URL	<a href="https://www.jimms.fi/">https://www.jimms.fi/</a>
Screenshot	<a href="http://www.example.com/screenshot123">www.example.com/screenshot123</a>
Platform	Windows
Operating System	Windows 11 Pro
Browser	Chrome Version 129
Severity	Major
Assigned to	/
Priority	High

### **Description**

When I click the magnifier icon of the site it is not working most of the times.

### **Steps to reproduce**

- Open a web browser and navigate to <https://www.jimms.fi/>.
- Type a search query into the search bar (e.g., "laptop").
- Click on the magnifier (search) icon next to the search bar.

### **Expected result**

After clicking the magnifier icon, the user should be redirected to the search results page displaying relevant products or information based on the search query.

### **Actual result**

Clicking the magnifier icon does not direct the user to a search results page, and no search action is performed.

# Bug Report 04

ID number	#004
Name	Slow Page Load Time
Reporter	Wasantha Ranasinghe
Submit Date	09/28/2024
Summary	Some of the product category pages, of some products give slow load times.
URL	<a href="https://www.jimms.fi/">https://www.jimms.fi/</a>
Screenshot	<a href="http://www.example.com/screenshot123">www.example.com/screenshot123</a>
Platform	Windows
Operating System	Windows 11 Pro
Browser	Chrome Version 129
Severity	Major
Assigned to	/
Priority	High

## **Description**

Some of the product category pages, of some products give slow load times. This impacts the user experience, especially for those navigating through multiple product categories.

## **Steps to reproduce**

- Go to the product categories section (e.g., Graphics Cards or Processors).
- Attempt to navigate between different subcategories.
- Pages take longer than expected to load.

## **Expected result**

Page loads should occur within a few seconds to ensure smooth navigation across the site.

## **Actual result**

Page loads take time and navigation across the site.
